---

## SUMMARY

Frontend-focused developer skilled in building responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React. Experienced in API integration, state handling, and clean component-based UI development. Focused on writing efficient, maintainable code and delivering polished web experiences.

---

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, JavaScript (ES6+), ReactJS
**UI / Dev Tools:** Responsive Design, API Integration, Git & GitHub
**Foundational**: C/C++, Python, Java, MySQL

---

## PROJECTS

**1. Weather Forecast Application** — ReactJS, OpenWeather API          Link
- Built a fully responsive weather app with clean UI and smooth interactions.
- Integrated OpenWeather API to fetch real-time weather data.
- Added error handling and improved loading states.
- Displays temperature, humidity, wind speed, and location-based results.

**2. Tours & Travels Web Application** — HTML, CSS, JavaScript          Link
- Developed a responsive travel booking interface with intuitive navigation.
- Integrated a chatbot using BotExpress to enhance user interaction.
- Improved layout consistency, dynamic rendering, and UX.

---

## EDUCATION

**B.Tech – Information Technology**
Techno International Newtown (MAKAUT) — CGPA: 7.59 (2021–2025)
**Senior Secondary (CBSE):** 83.4% (2021)
**Matriculation (CBSE):** 80.8% (2019)

---

## CERTIFICATION

- **AWS Solutions Architecture Virtual Experience**
  Completed tasks involving scalable hosting architecture and cloud design fundamentals.

- **One Roadmap Frontend Development Certification**
  Certified in Frontend Development through One Roadmap after successfully clearing a practical skill evaluation.
